🔗 Portfolio

Dynamic and results-driven Full Stack Developer with over two years of professional experience in building and managing scalable web applications. Proficient in React, Next.js, Node.js, and Nest.js, with expertise in both front-end and back-end development. Strong background in real-time applications, including chat systems using socket.io, MongoDB, and Vanilla JavaScript. Skilled in cloud infrastructure, particularly in AWS services like Lambda, EventBridge, and RDS for automation and instance management. A problem-solver with a passion for learning, and hands-on experience in leading projects from concept to deployment.
